Solatium

SOFAS

Antonio Citterio

Description

Solatium from the Apta Collection is the new classic seating system that includes 140 different elements. It features severe sizes softened by precious, elegant details. Its contemporary nature comes from its modular flexibility. Several different configurations are possible, playing on the double depth of the elements: linear sofas with chaise-longue terminal elements, dynamic corner sofas with armrests and backs of different heights and lastly, the ottomans. The frame is emphasised by metal profiles with bronzed nickel or black chrome finish. The seat cover and cushions is available in a wide range of leathers or fabrics, with matching profiles in fabric or leather, to offer monochromatic or contrasting solutions. To complete the system, small tables and consoles in various shapes and finishes that combine harmoniously and make the proposal elegant and very exclusive.
