SURFACES

You can find more materials, colours and decors with which you can give the surfaces of your Bel bathroom furniture an individual design in the product appendix, which starts on page 143.

NICELY COPPERED!

Copper is the new star among living accessories. Wonderfully warm in colour and shine, the basket and the tray are style expert one is glad to have around one.

REAL CHARMER

After a shower or a bath, one is happily taken in by soft, thick bathroom textiles such as the hand towels in gentle natural shades with contrasts.

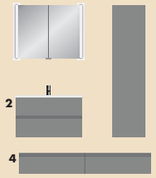

DREAM ROOM FRAGRANCE

A tender scent is spread by the pretty room fragrants made of porcelain with an inserted paper flower, via which the nice smell spreads in the bathroom.
